

Senior Design Mini Project

Andrew Nguyen and Heshan Chen

Our code for the exercises can be found edited directly in the `exercise_light.py`, `exercise_sound.py`, and `exercise_game.py`

1. Max_bright value was around 55000 and min_bright value was around 26000
2. Code edited on github
3. We decided to use thingspeak and included a screenshot of our data.
